Program and contents :

This workshop's organisation and teaching objectives consist in...

- Comparing and contrasting the artist's, scientist's and manager's point of view systematically and on several themes
- Becoming familiar with new languages and new methods, from the artist's, scientist's and manager's point of view

... learn to describe, visualise and assess a new methodology to answer an "order" that will come from outside participants under the form of an annual project.

This workshop varies from :

- Workshop classes held by professionals of the 3 disciplines
- Visits to museums, studios, galleries, sites of specific interest (program edited each year)
- Project work sessions, supervised by professionals and that must lead to the realisation of a creation such as a prototype, movie, model, ...
